

## **REMARKS**

In the parent application, the examiner issued a final Office Action on November 18, 2003. In response to the Examiner's rejections in that final Office Action, Applicant states the following:

The Examiner rejected all of the pending claims (21-32) under 35 U.S.C. § 102 as being anticipated by U.S. Patent No. 5,674,287 to Slepian et al. Applicant respectfully traverses the Examiner's rejection.

In this Application, Applicant has added claims 21-33. Claims 22-30 ultimately depend from claim 21, which has as an element a first one of the inflatable sections extending to a distal end of the body member and a second of the inflatable sections extending to a proximal end of the body member. Applicant additionally presents new claim 33, which is identical to the previously presented claim 21 with the exception of the inflatable sections extending along substantially all of the length of the body member.

Applicant submits that claims 21-33 are now distinguishable from the Slepian reference.
